

DRAFT

Wiscasset Waterfront Committee Meeting Minutes, September 15, 1022

Call to order 6:40 pm

Frank Sprague, Cindy Collamore, Susan Robson present.

Welcome new/returning members: Frank and Cindy

Updates on commercial pier replacement project Prock Marine awarded project: paring back scale including electrical and plumbing work; slight size change; removal of debris by contractor, to transfer station to be burned by Town. Project behind due to Hurricane and item availability. Hopefully starting 2nd week in October.

SHIP Grant \$\$ available, Town is applying: Currently Preliminary stage: available to do upgrades on Rec (Memorial) Pier: such as redecking, new railings, maybe additional floats, Dolphins. Grant requires a 1/3 commitment match from the town, which requires budgeting.

Tidal Energy project from Woodshole: meeting to bring awareness of the tidal measuring device, and fish counting apparatus, to be placed under Westport bridge. End of September.

Discussed our goals and vision, reviewed our goals from last spring, many accomplished, some partially. Agreed to pursue enhanced relations with the Town and property owners regarding the implementing of the RR ave Plan and bike ped plan. Maybe partnering with Transportation Committee, and Chamber to promote this project as a positive benefit to the Town.

Discussed enhanced uses of the Main St and Rec (Memorial) Piers...taking advantage of the revised Village Waterfront Ordinances.

Motion to adjourn: Susan; Cindy 2ndd
Adjourn, 7:40
